Most importantly, we offer Virtual Clinic for doctors and physicians to continue doing their practices remotely using our Telemedicine tool called TeleDoc to conduct all daily activities from start-to-end.

11:26:11 From pracer : The COVID-19 Report from FPDS.gov can be downloaded as Excel file and has two tabs. The second tab is a detail of all awards and user can sort by agency, state, etc.

11:26:16 From Anne Shaw : Aregnaz, you stated that the \$349 billion in funding is exhausted and I believe you referenced that to the PPP. You also stated that EIDL applications are temporarily closed and we did see first thing this morning that the application on the SBA.gov website is closed. Is it true that both PPP funds and EIDL funds are exhausted, just for clarification?

11:26:29 From Melanie's iPhone : Q: So, both the PPE and the EIDL have ran out of funds? thank you!

11:27:21 From David Mann : HAMVIS (Goldsboro, NC) - SBA \$10k advance - we applied and received a email of receipt of application on 09/30... is there any updates on funding of these advances that were to be sent with 3 business day?

11:27:26 From Mark Mills : The NCMBC COVID 19 web information is great, if you have not reviewed the information I encourage you to visit the webpage

11:27:37 From TomPlace : Question: AURA Technologies has developed a very inexpensive UV-C decontamination chamber specifically for N95 masks using NC manufacturing. We have submitted for FDA Emergency Use Authorization and expect to approved quickly, but we're essentially ready to go, just waiting to get final approval and funding to get these out there urgently to address PPE shortages we're already experiencing in NC. How do we get this in front of the right people or the governor so we can spin up the local economy and help the frontline healthcare workers? Is there some formal path to start that dialogue?

11:28:30 From James Harrell : The EIDL for those that were able to get in application: is funds there for them who were able?
