11:22:28 From JOEL : Great speakers so far!

Question for the Representatives/Sen Tillis: We have submitted a UV Decontamination Chamber for N95 Masks for FDA Emergency Use Authorization - how do we get in front of the right people to push approval forward and find funding to get the units to hospitals?

11:23:36 From Anne Shaw : Anne Shaw, SBCN - Small Business Center Network, www.ncsbc.net

11:24:56 From Chris White To North Carolina Military Business Center: Secretary Boyette has stated that the NCDOT will experience huge shortfalls in FYs 20 and 21 due in part to COVID-19. As a result they have halted a large number of important projects and contractors will begin shedding employees soon. Has there been any discussions about how to fix transportation funding?

11:27:21 From Swapna : question, who to contact for

11:27:54 From Swapna : ideas to revive economy?

11:29:29 From mike : Defense Acquisition Solutions Group, Mike Stevens (540) 446-4666. UV Light Decontamination, I have contacts that I believe can help you.

11:30:23 From Mickey To North Carolina Military Business Center: We make all our medical devices in USA actually all in NC. We would like to get capital to bring some of the supply chain back to the US and increase NC jobs create more jobs in NC... how do we get capital for machinery to start making some of these supplies in NC and not import from China?

11:31:45 From Scott Shipton : is there anyone driving best practices on re opening by product sectors...ie: if retail keep doors that are non fire rated open to avoid hand contact, wipe down card readers at registers, upgrade readers to contactless...keep limits on occupancy levels. By type of shut down businesses.

11:31:52 From Kathe's iPhone : I am an independent contractor hairstylist. I am a booth renter. I don't qualify for unemployment as of yet. I have yet to receive a stimulus check. I just found out that I would not qualify for a PPP loan because I do not have a business account through my bank. Can someone please tell me where my job falls in the phases and what I can do in the meantime

11:32:38 From Swapna : Swapna from Software Goldsmith Inc. offers IT solutions for medical professionals to practice using Virtual Clinics.

11:33:08 From Patrick Wylie : As an SBA GC for solar PV and energy storage based in Charlotte, (covering 5 states) I'd like to see that future bids for State and Military projects (that include an option for solar or storage) presented with an opportunity to bid on the

solar/storage portion alone without having to attempt a bid on the entire Electrical contract portion. Thank You. - Patrick Wylie, Accelerate-Solar.com

11:33:12 From Sarah Wood : Rep Saine and Szoka, will the Health Dept or another agency be making recommendations for public facing businesses, or will requirements be in place for hands free door openers etc?

11:34:00 From Brian Sturkie : If anyone has contacts with N95, FFP, or KN95 inventory on the ground in the US, we are actively searching for supply as well as exploring import opportunities. brian@amscientificsupply.com

11:34:53 From Sarah Wood : At supplyconnector.org we are working with Carolina Textile District and are solving the current supply chain problems in partnership with NC Manufacturing Extension Partnership, Emergency Management, and others...These ARE the solutions that will bolster US Manufacturing into our new future for the State of NC. Can you help us take leadership in this effort with these organizations?

11:35:13 From Swapna : thanks

11:36:53 From Drake Berryhill : As a part of returning to work, will the state mandate employee's temperature be taken before entering the work place?

11:37:24 From North Carolina Military Business Center : We will take a few more questions and those that we cannot get to, we will address following this session, please make sure to provide your email address so we can follow up.

11:37:59 From Nancy Johnston : NC Biotechnology Center good resource

11:46:09 From walterkruger : What is the contact information for General Martin

11:46:29 From North Carolina Military Business Center : Walter, email Courtney Smedick and I can get it to you.

11:47:15 From Jason Saine : Rep. Saine again - if you have information about your business that you want to share; 1-pager or a web address my staff and I utilize that information often to connect suppliers/buyers/markets etc. Again, our email is jason.saine@ncleg.net

11:53:23 From Lori : When we originally completed the EIDL loan, I was unaware that the \$10K advance was actually a grant, so did not check that box. Can we go back and submit another application to request the \$10K grant? Or is there a way to modify a current request?

11:53:29 From North Carolina Military Business Center : If you have questions you would like to ask Sen. Tillis and/or his staff, please let us know. Sen. Tillis will make remarks in a moment. We will vet the questions that should be asked to the general public and may address some individually offline with their office and the business. Please go ahead and ask your questions for Sen. Tillis and his staff right now. Thank you.

11:55:11 From Laura : If you receive the PPP loan and the \$10K grant, do you need to pay back the \$10K?

11:56:27 From Lori Jackson : Senator Tillis, small businesses in North Carolina are facing the prospect of closing their doors and the PPP was intended to be a prevention for this. However, hedge fund companies and high-end restaurants were able to apply and receive PPP funds ahead of NC small businesses providing critical support to the DoD. How do you plan to remedy this and prevent such abuse with the next round of funding?

11:56:28 From Aregnaz Mooradian, U.S. SBA : The EIDL Advance is a grant and does not need to be repaid.

11:57:18 From Sunil : We cannot hear

11:57:23 From TomPlace : He's muted!

11:57:25 From walterkruger : Cannot hear Senator Tillis

11:57:27 From Joe Pavel AmVetsME : he is muted

11:58:50 From Kathe's iPhone : I am an independent contractor hairstylist. I am a booth renter. I don't qualify for unemployment as of yet. I have yet to receive a stimulus check. I just found out that I would not qualify for a PPP loan because I do not have a business account through my bank. Can someone please tell me where my job falls in the phases and what I can do in the meantime

12:00:37 From David Hayden : How is the new legislation going to ensure the small businesses receive their fair share of PPP. The media is going to focus on every bad example. Is there a way to be more transparent on types of businesses that receive PPP to counter that?

12:01:18 From Sarah Wood : Sen Tillis, North Carolina is a leader in manufacturing and a critical link in the supply chain across the nation. At supplyconnector.org we are working hard with Emergency Management, Carolina Textile District, MEP partnerships, and others across the nation to solve the immediate needs of the supply chain, and bolster US manufacturing in the wake of the pandemic. Can you help us understand how we can work more quickly with you and others in Washington to participate in this effort, as well as position NC as a leader in this effort?

12:01:24 From JOEL : Bless you Senator Tillis for all you are doing for a great state. the VA has chosen to adopt confusing guidance that takes health care decision-making away from veterans. The VA is required by the VA MISSION Act to comply with the eligibility and access standards for community care. The VA's policy change limits health care for veterans and lacks the necessary legal authority. This is a bit off topic but the VA has chosen to adopt confusing guidance that takes health care decision-making away from veterans. As you know and can take credit for, the VA is required by the VA MISSION Act to comply with the eligibility and access standards for community care. The VA's new policy change limits health care for veterans and lacks the necessary legal authority. Would you be interested in a separate town hall about this topic?

12:02:45 From Mickey : Most clinics cannot do non-emergency cases. Without those many care facilities will go bankrupt. And so will many of us that supply products for these non-emergency cases. We will need testing for these clinics to be open according to task force. How can we get these facilities to open so suppliers like us don't go bankrupt?

12:02:54 From Sarah's phone : I applied for EIDL March 22 and then again April 1. I know people that applied much later and received funding. I have not been denied. What is the order these are being funded? I also applied for PPP the day it opened with Bank of America and have nothing yet. I did click for emergency funding in the grant and was told it takes 3 days but it's been 23 days....

12:03:54 From Sarah's phone : I bank with Bank of America and applied within the first hour of it opening up to its members

12:04:57 From TomPlace : Question for Sen Tillis: We have submitted an UV Decontamination Chamber for N95 Mask Reuse for FDA Emergency Use Authorization - who do we need to get this in front of to accelerate approval so we can ramp manufacturing in NC and get these out to hospitals?

12:05:11 From Karen Naylor : TOM DID IT

12:05:47 From Eric Surface : Senator Tillis, so many of us use 1099 folks with specialized skills to provide critical work that we cannot afford to hire in as W2. Although I understand 1099 folks can apply themselves, not being able to use 1099 payroll for calculations and forgiveness hurts our businesses as we may lose folks who are critical and know our architecture/processes/etc. Can you ask the SBA to consider PPP loan forgiveness for critical 1099 folks who have worked with the business pre-COVID-19 and continue to do so?

12:05:56 From Lori : Thank you, Sen Tillis, I will be in touch with your office!

12:06:17 From Jason Saine : Saine: Independent Contractors etc should be able to file tomorrow on the DES website.

12:07:22 From Chad H : Honorable Senator Tillis. Thank you for your active participation in today's conference ! Many of us in this conference are actively working on solutions to Get America & North Carolina Back to Work Again as safely & as quickly as possible. For example, Lucid Drone Technologies (Davidson, NC) is working with NCMBC to develop & manufacture Unmanned Aerial Systems to deploy compounds that disinfect / sanitize, protect (persistence of 28 days) against COVID-19. In other words, Biodefense solutions that would support you in your goal of returning North Carolinians to work as safely & as quickly as possible. What is this best mechanism for participants in this conference to get such solutions in front of you & your team for review ?
Thank You & Blessings to You&Your Family ! Chad Holdsclaw, Lucid Drone Technologies, choldsclaw@luciddronetech.com

12:09:46 From Chris Burke : Is there a link for the NC (state-level) small business loan program that was mentioned earlier in the webinar? (\$50K max with a 66-month payback). Thanks!

12:10:46 From Rox : ncrapidrecovery.org for the state small business loan program support

12:10:58 From wbest : <https://www.nccommerce.com/news/solutions-covid-19/business-resources>

12:12:19 From rotherb : Senator Tillis, There is a lot of discussion about how at the national level and state level the number of deaths are being classified as Covid 19 related even though the statistics show most deaths have been largely due to pre existing diseases or conditions, Is there an effort at any level to go back and review cause of death to better distinguish what deaths are truly due to Covid 19 only?

12:12:21 From North Carolina Military Business Center : If businesses need support connecting with Sen. Tillis' office, please contact Courtney Smedick and I can assist you in getting in touch with those folks. courtney@ncmbc.us

12:13:14 From Patrick Wylie : Thank you, Sen. Tillis. Upon opening up State and Military contract work, can there be a commitment made to construct "behind-the-meter" solar arrays on these new buildings as a baseline practice for reducing overhead costs in running those new buildings? (Alongside "Peak energy demand" mitigation through simple AI) i.e. Freeing up \$ resources to the state to respond to future problems. Thank you. Patrick Wylie, www.Accelerate-Solar.com

12:16:19 From Dennis Ellington : Senator Tillis: What can you tell us about the details of an additional, infrastructure focused, stimulus bill?

12:17:00 From Sarah's phone : does that mean we should reapply with the numbers including our 1099 employees?

12:18:16 From North Carolina Military Business Center : If we do no address any questions or you have follow on questions, feel free to contact Courtney Smedick, courtney@ncmbc.us and I will make sure to connect you to the right representatives for an answer.
