The Defense Logistics Agency

Built to Change, Built to Last, Built to Support Combat

DLA is responsible for managing end-to-end global supply chains from raw materials to final disposition. Operating nationwide and in more than 25 countries, DLA ensures rapid, reliable delivery of critical supplies and services to the Military Services, CCMDs, federal agencies, and partner and allied nations. Wherever America's forces are, DLA is there – driving readiness and sustaining operations with unmatched global support.

Business Models

DLA Direct is designed to support the unique and often complex logistics requirements of the U.S. Military. Handling military-unique items such as weapon system parts, many of which support aging platforms with long lead times, inconsistent demand patterns, and specialized specifications.

Customer Direct, by contrast, focuses on the centralized procurement of largely commercial, off-the-shelf items such as medical supplies, food, and fuel. DLA leverages economies of scale and standardization to drive efficiency and cost savings across the DoW.

DLA Export Control Data Access

The Defense Logistics Agency (DLA) has a responsibility to protect the export-controlled data entrusted to its care by the Military Services from unauthorized disclosure and IAW Trade Security Control laws. In an effort to meet this obligation, DLA suppliers requesting access to export-controlled technical data for a DLA solicitation/purchase order/contract must:

1. Have an approved US/Canada [Joint Certification Program \(JCP\)](#) certification (DD Form 2345).
2. Have an approved [DLA Internet Bid Board System \(DIBBS\)](#)  account with an enabled DLA technical data distribution system (cFolders) account.
3. Have a business need for the export-controlled data (e.g., to quote on a DLA solicitation, fulfill a DLA purchase order/contract, or conduct a DLA approved research and development project).
4. Have an approved DLA-specific certification for access to export-controlled data. To request DLA-specific certification, you must:
 - i. Complete the [“DLA Introduction to Proper Handling of DoD Export-Controlled Technical Data Training”](#) (PDF) and upload the “Certificate Statement of Export Control Compliance” (Page 15) to your DLA Enhanced Validation Request via the JCP Portal system [Joint Certification Program \(dla.mil\)](#). For the most up to date information and instructions on how to register and apply, please visit [JCP Home \(dla.mil\)](#).
 - ii. For help in determining your physical and MAC addresses, refer to [“Finding Your MAC Address Instructions”](#) (PDF).

After the JCP Office reviews these documents, along with your DD 2345, the DLA controlling authority will then complete a Trade Security Control (TSC) assessment to determine the eligibility of the DLA supplier seeking access to the export-controlled technical data. Approval for access to DLA export-controlled technical data is rendered by the DLA and not the JCP Office.

E-mail us at DLAJ344DataCustodian@dla.mil for questions or additional interest in DLA Export Control
